Program Guide Service for Mobiles, "G-GUIDE MOBILE"
3 Upcoming Fall Models of Sony's "Sugo-roku" Series to Support the
"G-GUIDE Program Guide Remote Control" Remote Scheduling Function.
~ Total Number of iMode and au Registered Users Reaches 9 Million ~

Following the addition of the **"Remote Scheduling Function"** since May 2006 on "G-GUIDE MOBILE" (Application name: "G-GUIDE Program Guide Remote Control"), the TV program guide provided by Interactive Program Guide, Inc. ("IPG," based in Chuo-ku, Tokyo, President: Keisuke Toji) and D2 Communications, Inc. ("D2C," based in Minato-ku, Tokyo, President: Akihisa Fujita) for NTT DoCoMo mobiles, **3 more of Sony's "Sugoroku" models supporting the remote scheduling function are expected to go on sale this Fall.**

"G-GUIDE Program Guide Remote Control" is an application that provides TV program guide listings for free. The "Remote Scheduling Function" is a function that allows users to set recordings on their home DVD recorders from their mobile phones via network communication. By completing a simple initial registration, users can easily set recordings from anywhere outside their home.

Since May 2006, this remote scheduling function has been pre-installed in 3 models of Sony's "Sugoroku" series of HDD-equipped DVD recorders with a built-in digital Hi-Vision tuner (RDZ-D97A/D77A/D87), and will be pre-installed in an additional **three "Sugoroku" models (RDZ-97A/D77A/D87), expected to go on sale on November 1st**, making the total number of supporting models six. Users can access the remote scheduling function from the "G-Guide Program Guide Remote Control" application on the FOMA[®] 902iS Series, and FOMA[®]SO902i.

"G-GUIDE MOBILE" provides both a i-mode version and au version, and **the total number of registered users as of September 8th has reached 9 million**, with 7.62 million i-Mode users and 1.4 million au users.

D2C and IPG will continue to improve the convenience and services offered by "G-GUIDE", starting with the expansion of DVR and mobile models supporting the remote Scheduling Function."
